

RAPTOR-GAMING P7

Product

Superior Pro-Gamer Mousepad for Low-Sense & Mid-Sense-Gamers

The RAPTOR-GAMING P7 is made of a flexible foamed textile material, which is coated with a special high quality surface material. Due to the quality and the measurements of 350 x 250 x 2mm the RAPTOR-GAMING P7 is made for Low-Sense- and Mid-Sense-Gamer.

The RAPTOR-GAMING P7 is suited for the general use of optical, laser and ball mice. The thickness of only 2mm avoids early fatigue of the wrist and therefore, is ideal for extensive deathmatches. The RAPTOR-GAMING P7 is among the most flat pro-gamer mousepads on the market. The complete bottom side is coated with a profiled anti-slip rubber, keeping the mousepad from slipping on any surface.
