Power-Tuning for your Gamer-Mouse

With the RAPTORGAMING P2 you will tune your Mouse and put the turbo gear into work. Without fluffing, dirtyness or fray out on the surface. This specially developed mousepad for the Pro-Gamer delivers speed pure. For fast reactions, short moves and a very precise targeting accuracy. This safes you energy for the next „Death-Match“ and relieves your wrists.

The perfect fit to the needs of Pro-Gamer. The structured surface-coat delivers optimized sliding characteristics for all types of current mice. The friction-resistance is minimized and the big surface rest and the first class sliding characteristics deliver highest precision and pixel-precise movements. The non-sliding underside brings safe stability and the pad is robust and scratch resistant.

In the package included you will find sliding spray RAPTORGSLIDE and an additional set mouse sliders called RAPTORSLIDERS to improve even more the sliding features of your gaming mouse.
